INTERNSHIPS

Company	Year	Domain	Brief Description
Kaizen International Systems	June 2016	Hardware & Software Testing	<ul style="list-style-type: none"> In this Internship I was associated with both aspects of a computer, hardware and software. In the hardware part I had to troubleshoot a system and solve the errors. The software part was mainly related with installation and testing.
MTS IT Services	December 2017	Software development	<ul style="list-style-type: none"> This internship, I was hired as a software developer. They required a software for the collecting the attendance of their employees and some company data. I successfully managed to give them what the needed.
L&T – Larsen and Tubro	July 2020	Software development	<ul style="list-style-type: none"> My final year Internship is with L&T. I will be interning here for 12 months, as a software development intern, and will be working on different projects which involve front-end, as well as back-end technologies.

KEY PROJECTS / TECHNICAL PUBLICATION / PRESENTATIONS / WORKSHOPS

Key Projects			
Project Title	Year	Domain	Brief Description
Event booking Website for college committee	Jan 2018 – March 2018	Web Development	There are many different committees in a college and every committee have their own events throughout the year, so instead of setting up RD for each event, we made a website in which students could book tickets for the event online. This was on the similar grounds on the previous project but much more in detail.
Tip Calculator App based on customer review	July 2018 – October 2018	App Development	Different customers have different types of reviews when they go to a restaurant. So we made an app which calculates tips based on customer review.
ServiceIt App	Jan 2019 – March 2019	App Development	This app was made to ease the servicing process of any product through the service center. It was an appointment booking app for your slot in a service center. Instead of standing in long queues you could just book your slot and be at ease.

License Plate Detection using Image Processing	June 2018 – Nov 2018	Image Processing	It was used to detect license plate from a image of Car. It can be implemented on the CCTV camera on tolls.
Screenager.live	December 2017 – April 2018	Web, App Development	This was my first startup which did not work out quite well. It was basically a social media type of platform dedicated to colleges. College news, different social clubs, competitions. We wanted to curate everything to one single platform.
Techlinque	September 2019 - Present	Web Agency	Being the Founder of Techlinque, established in 2019 Mumbai India, we are a young and dynamic team who deliver cost-effective, result-driven solutions that offer a personalized service with quantifiable results for our clients.(www.techlinque.com)
Platic waste collector and Rewarder Based on Points	June 2019 – April 2020	App Development and Hardware	We are building a Plastic Waste Collection unit for Plastic bottles which will be integrated with an App which we are working on. The app will give you points based on the amount of plastic you dump and these points can be further redeemed for vouchers, gift cards .
Research Paper	December 2019 – June 2020	Machine Learning	AutoML for Model Compression and Acceleration on Mobile Devices using Reinforcement Learning. Journal - International Journal of Advanced Science and Technology. Link - http://serisc.org/journals/index.php/IJAST/article/view/19364

Presentation / Workshop	Brief Description
Python Workshop	Understanding the basics of Python Programming
Ethical Hacking Workshop	Knowledge about various hacking techniques and implementing basic hacking commands

EXTRA-CURRICULAR ACTIVITIES / ACHIEVEMENTS / INTERESTS

Position of Responsibility	<ul style="list-style-type: none"> • Founder Techlinque.com • Executive at Leo Club. (Non-profit Organization) • Food and beverages head at Global Citizen, Wizcraft. • Accred head at White fox entertainment, Justin Bieber concert. • Entrepreneurship Development Director at Rotrac Club
Achievements	<ul style="list-style-type: none"> • 2nd Position in inter-college web development competition • 1st position in 3 poetry writing competitions • 1st position in Viva prince. Represented Mumbai in a talent show.
Co-Curricular Certifications & Extra - Curricular Activities	<ul style="list-style-type: none"> • Have been a part of 3 Model United Nations conference. • In-Depth Web development course , at NIIT Institute. • Artificial Intelligence course, this was all about AI with Deep Learning • Have worked with Wizcraft for the global Citizen event. • Have worked with White Fox entertainment and was a part of the Justin Bieber concert. • Participant in Polarizer Competition. • Search Engine Optimization course. • Time Management Course.
